

## Filtrafine Wound-Fine BB Series Filter Cartridges

*Multi-Purpose Depth Filter Cartridges that Deliver Reliable, Consistent Performance for Use in Big Blue Housings*

- Graded Pore Structure for Efficient Removal of a Wide Range of Particle Sizes
- Cartridges Manufactured by Computerized and State-of-the-Art Equipment to Ensure Consistent Quality
- Optional Inner Core Cover to Minimize Fiber Migration
- Available in Cotton and Polypropylene Media
- Wide Chemical Compatibility
- Cartridge Lengths from 10" to 20"
- Special Outside Diameter of 4.3"
- Manufactured Under an ISO 9001 Quality System

### Product Specifications

#### *Materials of Construction:*

- Filter Media: Premium Bleached Cotton (FDA Listed)  
Cleaned Polypropylene (FDA Listed)
- Center Core: Polypropylene  
304 Stainless Steel

#### *Dimensions:*

- Length: 10" to 20" (254mm to 508mm)
- Inner Diameter: 1.1" (28mm)
- Outer Diameter: 4.3" (110mm)

### Performance Specifications

- Retention Ratings: 1, 3, 5, 10 and 20µm
- Maximum Temperature: See Material Selection Guide

## Material Selection Guide

		Filter Medium	
		Premium Bleached Cotton (FDA Listed)	Cleaned Polypropylene (FDA Listed)
<b>Max. Temp.</b>	Stainless Steel Core	300°F 130°C	200°F 95°C
